

Smart energy for a safer world.

Electricity is everywhere in your daily life. When David's on the job, he makes sure everything is running smoothly. So do we. Thanks to Schneider Electric, the world leader in the management of electricity and automation, technology becomes so effective that you forget it's even there. Together with its brands: Square D® — the best known name in NEMA type electrical distribution and control products, systems and services — and Telemecanique® — one of the world's leading brands of automation and control products, systems and solutions — Schneider Electric converts electricity into smart energy. Creating processes and solutions today that are simple, efficient and environmentally friendly. So tomorrow's world is a better place to be. Welcome to a new electric world.

1

This is where we automate the production line.

4

This is David. He's about to go on break. (Good thing we also supply power to the soda machine.)

2

This is where we control the flow and speed of the conveyor belts.

3

This is where we supply electrical power and reduce cost.
